WEDNESDAY: 23 April 2025. Afternoon Paper.

This paper consists of seven (7) questions. Answer any FIVE questions. ALL questions carry equal marks. Do NOT write anything on this paper.

QUESTION ONE

(a)	Explain THREE basic economic problems.	(6 marks)
(b)	Analyse the THREE motives of holding money as advanced by the Keynesian liquidity pre-	eference theory. (6 marks)

(c) Identify EIGHT policy measures that could be adopted by developing countries to encourage industrial development.
 (8 marks)
 (Total: 20 marks)

QUESTION TWO Outline FOUR assumptions underlying consumer rational behavior. (4 marks) (a) (b) Highlight SIX features of monopolistic competitive firms. (6 marks) (c) Explain FIVE applications of production possibility curves in economics. (10 marks) (Total: 20 marks) **QUESTION THREE** Given the demand function: (a) Q = 350 - 1.5Q + 70 p^2 **Required:** Determine the point elasticity of demand when price is Sh.10. (4 marks) (i)

	(ii)	Interpret your results.	(2 marks)
(b)	Identif	y FIVE positive effects of high interest rates in an economy.	(5 marks)
(c)	Outline	e FIVE limitations of indifference curve analysis.	(5 marks)
(d)	Disting	guish between the "fiscal multiplier" and the "export multiplier".	(4 marks) (Total: 20 marks)

Time Allowed: 3 hours.

OUESTION FOUD

QUES (a)	TION FO		· effectiv	e use of price discrimination in an econo	my. (5 marks)
(b)	Explain FOUR functions of money.			(4 marks)	
(c)	Outline	FIVE advantages of a perfectly compe	titive ma	rket.	(5 marks)
(d)	Summa	rise SIX factors that might determine th	e exchar	nge rate of a country's currency.	(6 marks) (Total: 20 marks)
QUES (a)	TION FI Highlig	VE ht FIVE limitations of economic planni	ng in dev	veloping countries.	(5 marks)
(b)	Explain	FOUR advantages of localisation of in	dustries	in a country.	(4 marks)
(c)	Using a curve (ationship	between marginal product curve (MP)	and average product (5 marks)
(d)	State S	IX factors that may influence price elast	icity of c	lemand.	(6 marks) (Total: 20 marks)
QUES (a)	TION SI Disting	X uish between "variable costs" and "fixed	d costs".		(4 marks)
(b)	Descrit	e FIVE ways in which a government m	ay influe	ence allocation of resources.	(5 marks)
(c)	Outline	FIVE determinants of supply in an eco	nomy.		(5 marks)
(d)					(6 marks) (Total: 20 marks)
QUES (a)	TION SI The fol		al income	e of an economy in millions of shillings:	
	Deprec Indirec Busine Persona Govern	national product (at market prices) iation allowance t taxes less subsidies ss taxes al income taxes ment transfers ed profits		498.5 56.0 52.4 13.5 76.2 68.2 15.0	
	Requin Determ	ed: ine the following:			
	(i)	Net National Product at market price.			(2 marks)
	(ii)	Disposable income.			(2 marks)
	(iii)	Personal income.			(2 marks)
	(iv)	Net National Income at factor cost.			(2 marks)
(b)	Outline	THREE causes of cost-push inflation.			(3 marks)
(c)	Explain	FIVE arguments against international	trade rest	trictions.	(5 marks)
(d)	Identif	FOUR factors that might influence the	price of	labour as a factor of production.	(4 marks) (Total: 20 marks)

.....

TUESDAY: 3 December 2024. Afternoon Paper.

Time Allowed: 3 hours.

This paper has seven (7) questions. Answer any FIVE questions. ALL questions carry equal marks. Do NOT write anything on this paper.

QUESTION ONE

(a)	(i)	Explain the term "credit creation".	(2 marks)
	(ii)	Describe THREE factors that limit the effectiveness of credit creation by commercial banks	. (6 marks)
(b)	State F	OUR challenges associated with regional economic integration in developing countries.	(4 marks)
(c)	(i)	Enumerate FOUR causes of a budget deficit in an economy.	(4 marks)
	(ii)	Highlight FOUR policy measures that could be adopted to correct a budget deficit. (Tota	(4 marks) l : 20 marks)
QUES'	TION TV	WO	
(a)	Explair	FIVE disadvantages of adopting a dual exchange rate regime in an economy.	(5 marks)
(b)	Identify	SIX factors that determine the price of labour as a factor of production.	(6 marks)
(c)	Outline	FIVE functions of financial intermediaries.	(5 marks)
(d)	Highlig	the FOUR assumptions of indifference curve analysis. (Tota	(4 marks) l : 20 marks)
QUES (a)	TION TH Explair	IREE In SIX causes of wage difference between the "industrial occupation" and the "agricultural	occupation". (6 marks)
(b)		arise SIX measures that the governments in developing countries may put in place to spur g al sector.	growth in the (6 marks)
(c)	Explair	FOUR applications of the concept of equilibrium in economics.	(4 marks)
(d)	Propose	e FOUR criticisms of the discounted marginal productivity theory. (Tota	(4 marks) l : 20 marks)
QUES'	TION FO		
(a)		mmodity and money market for a certain economy is given by the following functions: odity market	

Commodity market C = 500 + 0.64Y I = 1720 + 12rMoney market $M_{S}1,400$ $M_{DT} = 0.5Y$ $M_{DS} = 600 - 10r$

	Requir (i)	red: Derive the IS function.	(5 marks)
	(ii)	Derive the LM function.	(5 marks)
	(iii)	Determine the equilibrium rate of interest and equilibrium level of national income.	(4 marks)
(b)		ne aid of a well labelled diagram, explain the relationship between the marginal p e product curve.	roduct curve and the (6 marks) (Total: 20 marks)
QUES (a)	FION FI Using a curve".	a well labelled diagram, differentiate between "gently sloped supply curve" and "s	teeply sloped supply (6 marks)
(b)	Highlig	the SIX drawbacks of collective bargaining agreement in relation to trade unions.	(6 marks)
(c)	Outline	FOUR features of monopolist competition.	(4 marks)
(d)	Explair	FOUR positive environmental impacts of economic growth.	(4 marks) (Total: 20 marks)
QUES (a)	TION SI (i)	X Explain the concept of consumer sovereignty.	(2 marks)
	(ii)	Enumerate FOUR factors that limit consumer sovereignty.	(4 marks)
(b)	Summa	rise FOUR economic implications of rural-urban migration.	(4 marks)
(c)	Explair	the application of price elasticity of demand in making decision by:	
	(i)	Government.	(2 marks)
	(ii)	Producers.	(2 marks)
	(iii)	Consumers.	(2 marks)
(d)	Analys	e FOUR causes of unfavourable balance of payment in developing countries.	(4 marks) (Total: 20 marks)
QUES (a)	FION SE Outline	EVEN SIX challenges developing countries face due to over reliance on foreign aid.	(6 marks)
(b)	The dep $P = 200$	mand function for a firm is given as: $0 - 40Q$	
	Detern (i)	nine: Total revenue function.	(2 marks)
	(ii)	Average revenue function.	(2 marks)
	(iii)	Marginal revenue function.	(2 marks)
(c)	Discuss	FOUR restrictions to international trade.	(4 marks)
(d)	Explair	FOUR challenges facing the agricultural sector in developing countries.	(4 marks)

(d) Explain FOUR challenges facing the agricultural sector in developing countries. (4 marks) (Total: 20 marks)

CIFA FOUNDATION LEVEL

ECONOMICS

TUESDAY: 20 August 2024. Afternoon Paper.

Time Allowed: 3 hours.

This paper has seven (7) questions. Answer any FIVE questions. ALL questions carry equal marks. Do NOT write anything on this paper.

QUESTION ONE

(a)	(i) Explain the concept of "price ceiling".	(2 marks)
	(ii) Discuss THREE advantages of setting price ceilings.	(6 marks)
(b)	Describe FOUR types of labour mobility.	(4 marks)
(c)	Enumerate FOUR challenges of capping interest rates in a country.	(4 marks)
(d)	Describe FOUR strategies that developing countries might apply to correct the balance	of payment deficit. (4 marks) (Total: 20 marks)
QUES	TION TWO	
(a)	Using a well labelled diagram, illustrate the regressive supply curve of labour.	(6 marks)
(b)	Explain THREE exceptions to the law of diminishing marginal utility.	(6 marks)
(c)	State FOUR challenges faced by small scale industries in developing countries.	(4 marks)
(d)	Outline FOUR characteristics of developing countries.	(4 marks) (Total: 20 marks)
QUES	TION THREE	
(a)	Outline SIX roles played by commercial banks in the economic development of a country.	(6 marks)
(b)	Argue SIX cases for restrictions in international trade.	(6 marks)
(c)	The following information represents the national income of country X in billions of shillings.	
	$\begin{array}{l} C = 220 + 0.8 Y^{d} \\ T = 30 + 0.1 Y \\ I = 70 \\ G = 20 \end{array}$	
	Where: $C = Consumption expenditure$ T = Taxes G = Government expenditure $Y^d = Disposable income$	

Required:

(i) The marginal propensity to save.

(ii) The multiplier.

(2 marks) CA14 & CF14 Page 1 Out of 2

(2 marks)

	(iii)	The consumption expenditure.	(2 marks)
	(iv)	The equilibrium level of national income and taxes.	(2 marks) (Total: 20 marks)
QUES (a)	TION FO State F	DUR IVE factors that limit the success of economic integration in developing countries.	(5 marks)
(b)	Disting	uish between "debt distress" and "debt conversion".	(4 marks)
(c)	Outline	SIX methods that may be adopted to clear external debts in developing countries.	(6 marks)
(d)	Highlig	ght FIVE limitations of the quantity theory of money.	(5 marks) (Total: 20 marks)
QUES (a)	TION FI Explain	VE n THREE demerits of the deductive method of economic analysis.	(6 marks)
(b)	Discus	s THREE forms of economic integration in relation to international trade.	(6 marks)
(c)	Descrit (i)	be how the concept of opportunity cost is applied in decision making with respect to Consumers.	: (2 marks)
	(ii)	Firms.	(2 marks)
	(iii)	Governance.	(2 marks)
	(iv)	International trade.	(2 marks) (Total: 20 marks)
QUES (a)	TION SI State F	X IVE features that influence the level of Foreign Direct Investment (FDI).	(5 marks)
(b)	Explain	n FOUR determinants of money supply in an economy.	(8 marks)
(c)	Using a	a well labelled diagram, illustrate the long-run equilibrium of a monopoly firm.	(7 marks) (Total: 20 marks)
QUES (a)	-	EVEN well labelled diagrams, distinguish between "inflationary gap" and "deflationary g statistics.	ap" as used in national (10 marks)
(b)	Highlig	ght FOUR principles of a good tax system.	(4 marks)
(c)	followi $P = 40$	-60Q $00 + 50Q - 80Q^2$	ions represented by the
	Determ (i)	nine: Average fixed cost function.	(2 marks)
	(i) (ii)	Average variable cost function.	(2 marks)
	(iii)	Marginal cost function.	(2 marks)

TUESDAY: 23 April 2024. Afternoon Paper.

Time Allowed: 3 hours.

This paper has seven (7) questions. Answer any FIVE questions. ALL questions carry equal marks. Do NOT write anything on this paper.

-	TION O		<i></i>	
(a)	Highli	ght FOUR factors that cause a downward shift in the demand curve.	(4 marks)	
(b)	Explai	Explain THREE reasons for the fluctuation of commodity prices in the agricultural sector.		
(c)	Using interfe	a well labelled diagram, illustrate the circular flow of income in an open economy wit rence.	h no government (6 marks)	
(d)	State F	State FOUR disadvantages of a perfectly competitive market.(4 marks)(Total: 20 marks)		
QUES (a)	TION T With a	WO In aid of a well labelled diagram, explain the concept of Production Possibility Frontier (P	PPF). (5 marks)	
(b)	Argue	THREE cases in favour of Foreign Direct Investment (FDI) in least developed countries	. (3 marks)	
(c)	(i)	Explain the term "consumer equilibrium".	(2 marks)	
	(ii)	Using a well labelled diagram of indifference curves, illustrate the consumer's equilibri	um point. (6 marks)	
(d)	Summ	arise FOUR types of unemployment in least developed countries.	(4 marks) Total: 20 marks)	
OUES	TION T	HREE		
(a)	(i)	Explain the term "monetary policy".	(2 marks)	
	(ii)	Identify FOUR objectives of fiscal policies.	(4 marks)	
(b)	The fo	llowing information relates to a given economy:		
		nal prospensity to save (MPS)= 0.2omous consumption= 400		
	Requi	red:		
	(i)	Formulate the consumption function.	(3 marks)	
	(ii)	Determine the change in National Income if the Government's expenditure was to increase	ease by 50%. (3 marks)	
(c)	Using	an appropriate diagram, explain FOUR properties of indifference curves.	(8 marks) Total: 20 marks)	

CA14 & CF14 Page 1 Out of 2

QUESTION FOUR

(a)

(b)

(0)	Examine FOOR reasons why the domain out of is negatively stoped.	(Thanks)	
(c)	Using a well labelled diagram, differentiate between "movements along a supply curve" and "shifts curve".	s in supply (6 marks)	
(d)	Propose FIVE policy measures that the government of a country could take to accelerate development. (Total:	economic (5 marks) 20 marks)	
OUE			
(a)	FION FIVE Explain FIVE disadvantages of a managed floating exchange rate.	(5 marks)	
(b)	Outline FIVE reasons why the high cost of living is a major policy issue in developing countries.	(5 marks)	
(c)	With the help of a diagram, explain the relationship between the marginal cost curve and the average curve.	e total cost (5 marks)	
(d)	Outline FIVE objectives of minimum wage legislation. (Total:	(5 marks) 20 marks)	
OUEST	ΓΙΟΝ SIX		
(a)	Identify FIVE obstacles to economic growth and development in developing countries.	(5 marks)	
(b)	Ubromaxtek University has opened Satellite Campus in a neighbouring country. It has been estimated that the annual fixed cost of the Satellite Campus is USD 48,900. The fees to be charged per student and the variable cost per unit are USD 1,025 and USD 837 respectively.		
	Required: (i) Determine the number of students that Satellite Campus should enrol in order to break-even.	(2 marks)	

Enumerate FIVE challenges that could contribute to ineffectiveness of trade unions in developing countries.

Examine FOUR reasons why the demand curve is negatively sloped.

- (2 marks) (ii) Using the level of enrolment in (b) (i) above, calculate the expected level of profits.
- (c) State **FIVE** circumstances under which price control is necessary.
- (d) The following information relate to the national income figures of a certain economy in billions of shillings:

Year	Nominal Gross National Product (GNP)	Real GNP
2000	1,359	1,359
2010	2,857	1,623

Required:

	(i)	Determine the GNP implicit price deflator.	(3 marks)
	(ii)	Calculate the rate of inflation. (Total	(3 marks) : 20 marks)
OUES	TION SI	EVEN	
(a)	(i)	Explain the term "producer equilibrium" as used in economics.	(2 marks)
	(ii)	Highlight FIVE assumptions of producer surplus.	(5 marks)
(b)	With th	he help of a well labelled diagram, explain the stages of the law of diminishing returns.	(6 marks)
(c)	Explai	n FOUR monetary policies that the central bank of a country might apply to control inflation.	(4 marks)
(d)	Outline	e THREE measures that developing countries might use to promote agricultural production.	(3 marks)

(Total: 20 marks)

This paper has seven (7) questions. Answer any FIVE questions. ALL questions carry equal marks. Do NOT write anything on this paper.

QUESTION ONE

TUESDAY: 5 December 2023. Afternoon Paper.

			CA14 & CF14 Page 1 Out of 2
	(ii)	Using a well labelled diagram, derive the Engel Curve for a normal good usin analysis.	g the indifference curve (8 marks) (Total: 20 marks)
(b)	(i)	Differentiate between an "Engel curve" and "Income consumption curve" behaviour analysis.	as used in consumer (4 marks)
	(ii)	List SIX factors that determine the cost behaviour of a firm.	(6 marks)
QUES (a)	(i)	OUR Explain the term "optimal size of the firm".	(2 marks)
(c)		e FIVE reasons why urban unemployment is a major policy issue in developing co	ountries. (6 marks) (Total: 20 marks)
(b)		ibe SIX roles of industry in economic development of the least developed countries	
QUES (a)	TION T Discus	HREE ss FOUR sets of economic reforms that the Bretton Woods financial institution ma	y impose on a country. (8 marks)
(c)		FOUR product pricing strategies.	(4 marks) (Total: 20 marks)
	(ii)	Normal good.	(5 marks)
	(i)	Inferior good.	(5 marks)
(b)	With t	he aid of a well labelled diagram, illustrate the substitution and income effect of:	
QUES (a)	TION T Highli	WO aght SIX causes of deficits in the balance of payment.	(6 marks)
(d)	Explai	in FIVE causes of rising foreign debt in least developed countries.	(5 marks) (Total: 20 marks)
(c)	Descri	ibe FOUR characteristics of a perfectly competitive market.	(4 marks)
(b)	Exami	ine FIVE roles of the central bank in an economy.	(5 marks)
	(ii)	Argue FOUR cases in favour of government investment in the process of econo	omic planning. (4 marks)
(a)	(i)	Explain the term "economic planning".	(2 marks)

QUESTION FIVE

(a)	Explain FOUR assumptions of the law of demand.	(8 marks)	
(b)	The demand function for a certain commodity is given as follows:		
	$Q = 110 - 3P + \frac{75}{2P^2}$ Where; $Q = Quantity$ demanded P = Price		
	Required:(i)Point price elasticity of demand when the price is Sh.15.	(4 marks)	
	(ii) Interpret your results in (b) (i) above.	(2 marks)	
(c)	Outline SIX demerits of delocalisation of industries. (Total: 20)	(6 marks) 0 marks)	
QUES (a)	STION SIX Describe THREE steps involved in the scientific method of studying economics.	(6 marks)	
(b)	Explain the term "dead weight loss" as used in economics.	(3 marks)	
(c)	With the aid of a diagram, explain why the marginal revenue curve lies below the average revenue curve nonopoly.	rve under (5 marks)	
(d)	Summarise SIX factors that may determine wages and salaries in an economy. (Total: 2)	(6 marks) 0 marks)	
QUES (a)	STION SEVEN State FOUR factors that could influence the price of land as a factor of production.	(4 marks)	
(b)	A consumer has a fixed income of Sh.12,000 which must be spent entirely on bread and alcohol. The unit of bread is Sh.50 while the price per unit of alcohol is Sh.200.	price per	
	Required:(i)Determine the marginal rate of substitution of alcohol for bread.	(2 marks)	
	(ii) Suppose the level of consumer's income is subjected to a housing levy of 1.5% while the price of bread and the price per unit of alcohol increases by 10%, determine the marginal rate of sub of bread for alcohol.		
(c)	Using an appropriate diagram, explain how a fiscal policy may be used to control a deflationary g economy.	gap in an (6 marks)	
(d)	With the help of a well-labelled diagram, explain the relationship between the "long-run average cost curve" and the "short-run average cost curve". (6 marks)		

(6 marks) (Total: 20 marks)

.....

CIFA FOUNDATION LEVEL

ECONOMICS

TUESDAY: 22 August 2023. Afternoon Paper.

Time Allowed: 3 hours.

Answer any FIVE questions. ALL questions carry equal marks. Do NOT write anything on this paper.

QUESTION ONE

(d)	State THREE determinants of economic development.	(3 marks) (Total: 20 marks)
(c)	Distinguish between "merit goods" and "public goods".	(4 marks)
(b)	Explain FOUR types of unemployment.	(8 marks)
(a)	State FIVE advantages of a planned economy.	(5 marks)

QUESTION TWO

(a) Outline **FIVE** challenges that economic planners are likely to encounter when using the income approach to estimate the level of national income in least developed countries. (5 marks)

- (b) (i) Explain the term "credit creation". (2 marks)
 - (ii) Describe **THREE** factors that limit the effectiveness of credit creation by commercial banks in your country. (6 marks)
- (c) Using a well labelled diagram, illustrate the shutdown point of a firm operating under perfect competition.

(7 marks) (Total: 20 marks)

QUESTION THREE

(a)	(i)	Explain the term "wage control".	(2 marks)
	(ii)	Summarise FIVE consequences of wage control by the government in your country.	(5 marks)
(b)	Enume	erate FIVE economies of scale that may be enjoyed by a manufacturing firm.	(5 marks)
(c)	Descri	be FOUR ways in which a government might restrict international trade.	(8 marks) (Total: 20 marks)

QUESTION FOUR

- (a) With the aid of a diagram, explain the marginal efficiency of capital. (5 marks)
- (b) The demand and total cost function of a firm operating under perfect competition are given as:

P = 45 - 4QTC = 44 + 15Q

Where;

P represents price Q represents quantity TC represents total cost

	Requi		(2 montre)
	(i)	Determine the sufficient condition for profit maximisation of the firm.	(3 marks)
	(ii)	Determine the firm's price for profit maximisation.	(2 marks)
(c)	Identif	y FIVE factors that limit the application of the accelerator principle in an economy.	(5 marks)
(d)	Enume	erate FIVE roles of trade unions in an economy.	(5 marks) (Total: 20 marks)
QUES (a)	TION F	IVE llowing information relates to a hypothetical economy:	
		omous consumption = 8000 nal propensity to save (MPS) = 0.45	
	Requi (i)	red: Derive the savings function.	(3 marks)
	(ii)	If the level of government expenditure increases by 250%, determine the change in national income.	equilibrium level of (2 marks)
(b)	Outlin	e FIVE advantages of trade liberalisation to traders.	(5 marks)
(c)	Exami	ne THREE factors that influence the elasticity of supply.	(6 marks)
(d)	Identif	Ty FOUR objectives of fiscal policies.	(4 marks) (Total: 20 marks)
QUES	TION S	IX	
(a)	(i)	Explain the term "Structural Adjustment Programmes" (SAPs).	(2 marks)
	(ii)	Discuss THREE criticisms of SAPs in least developed countries.	(6 marks)
(b)		se FOUR challenges that may be encountered by an economy when transitioning from the enterprise system.	a planned economy (4 marks)
(c)	(i)	Explain the term "legal tender".	(2 marks)
	(ii)	With the aid of a diagram, explain the concept of liquidity trap.	(6 marks) (Total: 20 marks)
QUES	TION S	EVEN	
(a)		an appropriate diagram in each case, explain the four properties of isoquants.	(8 marks)
(b)	Analys	se THREE benefits of elasticity of demand in economic decision making.	(6 marks)
(c)	Descri	be SIX arguments in favour of regional integration in relation to international trade.	(6 marks) (Total: 20 marks)

CIFA FOUNDATION LEVEL

ECONOMICS

TUES	DAY: 25 April 2023. Afternoon Paper.	Time Allowed: 3 hours.			
Answe	er any FIVE questions. ALL questions carry equal marks. Do NOT write anything o	on this paper.			
QUES (a)	QUESTION ONE(a) Identify SIX conditions necessary for price discrimination under monopoly.(6 marks)				
(b)	Enumerate FIVE benefits of studying economics.	(5 marks)			
(c)	List FIVE measures that may be adopted to correct income inequalities in developing	countries. (5 marks)			
(d)	Highlight FOUR assumptions of indifference curve analysis.	(4 marks) (Total: 20 marks)			
QUES	TION TWO				
(a)	(i) Explain the term "Gini Coefficient" as used in economics.	(2 marks)			
	(ii) Describe THREE principles of the Gini Coefficient.	(6 marks)			
(b)	State SEVEN roles of the World Bank Group to a member state.	(7 marks)			
(c)	With the aid of a diagram, explain regressive supply curve.	(5 marks) (Total: 20 marks)			
QUES	QUESTION THREE				
(a)	Describe FOUR factors that determine the supply of money in an economy.	(8 marks)			
(b)	Identify FIVE tax measures that a government could adopt to spur growth in the agric	cultural sector. (5 marks)			

(c) Outline **SEVEN** demerits of inflation targeting. (Total: 20 marks)

QUESTION FOUR

(a) The commodity and money markets for a certain economy is given by the following functions:

Commodity market

С 400 + 0.45y= 1700 + 18r= Ι

Money market

M_S	=	1600
Mdt	=	0.25y
MDS	=	800 - 12r

(7 marks)

Required:

(i)	Derive the IS function.	(3 marks)
(ii)	Derive the LM function.	(5 marks)
(iii)	Determine the equilibrium rate of interest.	(2 marks)
(iv)	Determine the equilibrium level of national income.	(2 marks)
Explain	the following types of multipliers as used in economics:	
(i)	Investment multiplier.	(2 marks)
(ii)	Government multiplier.	(2 marks)
(iii)	Export multiplier.	(2 marks)
(iv)	Consumption multiplier.	(2 marks) (Total: 20 marks)

QUESTION FIVE

(b)

(a) Most developing countries are faced with a problem of high external debts.

As an economist, outline **EIGHT** policy measures that the developing countries could put in place to minimise the problem of rising external debt. (8 marks)

- (b) With the aid of a well labelled diagram, explain the law of diminishing marginal utility. (6 marks)
- (c) Enumerate SIX factors that influence the cost behaviour of a manufacturing firm. (6 marks) (Total: 20 marks)

QUESTION SIX

(a) The following information relates to the quantity demanded of commodity X at different prices and income levels of a consumer:

Quantity	Price (Sh.)	Income (Sh.)
1,200	160	60,000
1,000	180	40,000

Required:

	(i)	Determine price elasticity of commodity X and interpret your answer.	(3 marks)
	(ii)	Determine income elasticity of commodity X and interpret your answer.	(3 marks)
(b)	Identify	SIX advantages of economic integration to the member states.	(6 marks)
(c)	Explain	FOUR negative effects of increased government spending on economic growth.	(8 marks) (Total: 20 marks)
QUES	TION SI	EVEN	
(a)	(i)	Differentiate between a "stable equilibrium" and an "unstable equilibrium".	(4 marks)
	(ii)	With the aid of a well labelled diagram, illustrate an unstable equilibrium.	(4 marks)
(b)	Identify	SIX criticisms of the marginal productivity theory of wage determination.	(6 marks)
(c)	List SI	X reasons why mobility of factors of production is important.	(6 marks) (Total: 20 marks)
		•••••••••••••••••••••••••••••••••••••••

TUESI	AY: 24 November 2020.	Time Allowed: 3 hours.
Answei	any FIVE questions.	ALL questions carry equal marks.
QUEST (a)	TION ONE Explain four methods used by the government to stabilise agricultural prices.	• (4 marks)
(b)	Using suitable examples, differentiate between the following terms as used in econ	nomics:
	(i) "Basic human wants" and "secondary human wants".	(4 marks)
	(ii) "Public good" and "merit good".	(4 marks)
	(iii) "Stable equilibrium" and unstable equilibrium".	(4 marks)
(c)	With the aid of a well labelled diagram, illustrate the effect of a simultaneous in and increase in fuel prices.	ncrease in the income of the consumer (4 marks)
		(Total: 20 marks)
QUES (a)	FION TWO With the help of a diagram, discuss the concept of an individual engel curve behaviour.	as applied in the theory of consumer (5 marks)
(b)	Citing four examples, explain the significance of mobility of factors of production	n. (8 marks)
(c)	A firm uses two factors of production, labour and capital in the long-run. The pr the price per unit of capital is Sh.900. The firm has a budget of Sh.72,000 which produce an output level of 500,000 tons.	rice per unit of labour is Sh.1,200 while it uses entirely on labour and capital to
	Required: (i) With the help of a diagram, derive the optimal point of the firm.	(4 marks)
	(ii) Determine the firm's marginal rate of technical substitution (MRTS).	(3 marks) (Total: 20 marks)
QUES (a)	TION THREE Examine three sources of monopoly power.	(6 marks)
(b)	With the aid of a well labelled diagram, explain the equilibrium level of a firm structure in the long run.	m operating under monopolistic market (6 marks)

(c)

Assume that a producer has the possibility of discriminating between the domestic and foreign markets for a product with the demand functions given as follows:

 $Q_1 = 16 - 0.2 P_1$ (Domestic market)

 $Q_2 = 90 - 0.5P_2$ (Foreign market)

Total Cost (TC) of production is given as:

TC = 50 + 20Q

Required:

Determine the level of output and price to be charged for:

(i)	Domestic	market.
-----	----------	---------

(ii) Foreign market.

QUESTION FOUR

(a) A small hypothetical economy has the following information:

- $C = b_0 + b_1 Y$
- $I = I_0$
- $G = G_0$
- $T = \alpha_{0+}\alpha_1 Y$

Where:

- C = Consumers expenditure
- I = Private investment
- G = Government spending
- T = Taxes

Required:

Q (a)

(b)

(c)

	Incyun	cu.	
	(i)	Determine the marginal propensity to save.	(2 marks)
	(ii)	Derive the equilibrium level of income and taxes.	(6 marks)
b)	Differe	ntiate between "seasonal unemployment" and "frictional unemployment".	(4 marks)
c)	Explain	n the term "economic planning".	(2 marks)
d)	Highlig	th six characteristics of a good economic plan.	(6 marks) (Total: 20 marks)
QUEST a)	FION FI Enume	VE rate four factors that determine the velocity of money in circulation.	(4 marks)
b)	(i)	Explain the relationship between the multiplier and the accelerator.	(4 marks)
	(ii)	Evaluate four benefits that might accrue to an economy as a result of accelerator effect.	(8 marks)
c)	Summa	rise four factors that might lead to an inward shift in the optimal point of a firm.	(4 marks)

(Total: 20 marks)

CA21, CS21, CF21 & CP21 Page 2 Out of 3

(4 marks)

(4 marks) (Total: 20 marks)

QUEST (a)	Justify five reasons for differential interest rates in an economy.	(5 marks)
(b)	With the aid of a diagram, describe the concept of liquidity trap.	(4 marks)
(c)	Using suitable examples, provide three reasons for interest rate decontrol in an economy.	(6 marks)
(d)	Summarise five reasons that make it possible for commercial banks to create credit.	(5 marks) (Total: 20 marks)
QUEST (a)	TION SEVEN Summarise six corrective measures that developing countries should institute to correct the balance of payments position.	e persistent deficits in their (6 marks)

- (b) Discuss four policy recommendations that developing countries should institute to reduce regional imbalances in their economies. (8 marks)
- (c) Justify six reasons why external debt problems is a major policy issue in developing countries. (6 marks) (Total: 20 marks)

ECONOMICS

WEDN	ESDAY: 27 November 2019.	Time Allowed: 3 hours.		
Answer	any FIVE questions.	ALL questions carry equal marks.		
QUEST (a)	TION ONE Examine four limitations of a planned economic system.	(4 marks)		
(b)	With the aid of a diagram, explain the concept of production possibility curve.	(5 marks)		
(c)	With the help of a diagram, illustrate the concept of surplus as applied in the theory	y of market equilibrium. (5 marks)		
(d)	The following equations are given:			
	$Q = -10 + 6P \dots equation (i)$ $Q = 20 - 4P \dots equation (ii)$			
	Required:(i) Giving reasons, identify the demand function and the supply function.	(2 marks)		
	(ii) Determine the equilibrium price and quantity.	(4 marks) (Total: 20 marks)		
QUEST (a)	FION TWO Evaluate three fundamental economic issues that a society has to address to resources.	minimise the problem of scarcity of (6 marks)		
(b)	Explain five factors that lead to the external economies of scale in an economy.	(10 marks)		
(c)	Describe two assumptions of the law of variable proportions.	(4 marks) (Total: 20 marks)		
QUEST (a)	FION THREE Highlight four assumptions of consumer rationality.	(4 marks)		
(b)	With the aid of a well labelled diagram, explain the concept of a backward bending	g supply curve of labour. (6 marks)		
(c)	A firm operating under perfect competition observed that:			
.	 At a unit price of Sh.20 of product "R", 600 units were sold. At an increased price of Sh.70, the sales of product "R" decreased by 500 u The relationship between the price of product "R" and the quantity sold of p The total cost (TC) of product "R" is given by the function: 			
	$TC = 0.9q^2 + 30q + 1,000$			

Where q is the quantity of product "R" produced and sold.

Required: (4 marks) (i) The reconstruction of product "R". (4 marks) (ii) The equilibrium price. (2 marks) Cutset: Catal and a equilibrium price. (2 marks) Cutset: The reconstruction of a hypothetical country increased by 20% from the year 2015 to year 2018. (10 marks) Cutset: Despite this increase in per capita income, the residents of the country field that their living standards were deteriorating. (6 marks) (b) Describe three methods that could be used to measure the national income of a country. (6 marks) (c) The following are the consumption and investment functions of country Y in Sh. "Billion". (4 marks) (c) The following are the consumption and investment functions of country Y in Sh. "Billion". (4 marks) (d) Equired: (4 marks) (4 marks) (d) Examine four benefits of a contractionary monetary policy to an economy. (4 marks) (d) Examine four benefits of a contractionary monetary policy to an economy. (4 marks) (d) Explain is' factors that determine the level of induced investments in an economy. (4 marks) (d) Explain is' factors that determine the level of prices. (10 marks) (d)		
 (i) The profit earned at equilibrium. (4 marks) (ii) The equilibrium price. (2 marks) (2 marks) (3 The per capita income of a hypothetical country increased by 20% from the year 2015 to year 2018. Despite this increase in per capita income, the residents of the country felt that their living standards were deteriorating. (4 marks) (5 marks) (5 marks) (5 marks) (6 marks) (6 marks) (7 marks) (7 marks) (7 marks) (8 marks) (9 marks) (9 marks) (9 marks) (9 marks) (10 marks) (2 marks) (3 marks) (4 marks) (4 marks) (4 marks) (4 marks) (5 marks) (6 marks) (7 marks) (7	•	(4 marks)
(Total: 20 marks) QUESTION FOUR (a) The per capita income of a hypothetical country increased by 20% from the year 2015 to year 2018. (b) Explice this increase in per capita income, the residents of the country folt that their living standards were deteriorating. Required: Discuss five reasons that might have led to this feeling by the residents. (10 marks) (b) Describe three methods that could be used to measure the national income of a country. (6 marks) (c) The following are the consumption and investment functions of country Y in Sh. "Billion". C C = 200 + 0.8Y		. ,

CPA PART I SECTION 2 CS PART I SECTION 2 CIFA PART I SECTION 2 CCP PART I SECTION 2 ECONOMICS

TUESDAY: 21 May 2019.

Time Allowed: 3 hours.

Answer any FIVE questions.

ALL questions carry equal marks.

OI	IES	тι	ON	ONE	
νu			U I	U III	

(a)	(i)	Explain the Keynesian liquidity preference theory of demand for money.	(1 mark)
	(ii)	Outline five criticisms of the theory in (a) (i) above.	(5 marks)
(b)	(i)	Distinguish between "perfect oligopoly" and "imperfect oligopoly".	(2 marks)
	(ii)	Describe three methods used in fixing prices under the oligopoly market structure.	(6 marks)
(c)	Highli	ght six factors that might lead to a rightward shift of the optimal point of a firm.	(6 marks) (Total: 20 marks)
QUES	STION T	WO	
(a)	(i)	Enumerate five characteristics of a free market economic system.	(5 marks)
	(ii)	State five advantages of a free market economic system.	(5 marks)

(b) Summarise five factors that could lead to a leftward shift of the supply curve of a commodity. (5 marks)

(c) The demand and average cost functions of a hypothetical firm are represented by the following functions (in thousands):

. . .

$$P = 50 - Q$$
$$AC = \frac{100}{Q} - 16 + 2Q$$

Where: P is the unit price in shillings. Q is the quantity of output in units. AC is the average cost in shillings.

Required:

- (i) The total cost function.
- (ii) The variable cost function.
- (iii) The total profit of the firm when Q = 10 units.

(3 marks)

(Total: 20 marks)

(1 mark)

(1 mark)

CA21, CS21, CF21 & CP21 Page 1 Out of 3

QUESTION THREE

(a)	(1) Explain the difference between the "cardinal approach" and the "ordinal approach" to measurin		
	(ii)	Outline four limitations of the cardinal approach to measuring utility.	(4 marks)
(b)	Highli	ght six factors that determine the effectiveness of trade unions in a society.	(6 marks)
(c)	Discus	ss four applications of elasticity of demand in economic decision making.	(8 marks) (Total: 20 marks)

QUESTION FOUR

- (a) With the aid of a well labelled diagram, explain the equilibrium level of a firm operating under an oligopolistic market structure. (5 marks)
- (b) Summarise five reasons why the prices of agricultural products fluctuate more than the prices of manufactured products. (5 marks)
- (c) Suggest five policy measures that could be adopted by a government to enhance geographical mobility of labour within a country. (5 marks)
- (d) The table below shows the quantity of units produced by a certain firm and the corresponding total cost:

Units produced		Total cost (Sh."000")
0		77
2	•	216
4		235
6		319
8		348
10		382

Required:

(ii)	The marginal costs of production for the 4^{th} and 8^{th} units respectively.	(2 marks) (Total: 20 marks)
(i)	The average variable costs when the units produced are 2, 6 and 10 respectively.	(3 marks)

QUESTION FIVE

(a) Differentiate between "demand deficient unemployment" and "disguised unemployment" as used in economics.

(b)	Enumerate four effects of inflation on the functions of money.	(4 marks)
(c)	Outline six limitations of the theory of comparative advantage as used in international trade.	(6 marks)

(d) The following data relate to the consumption function of a hypothetical economy in millions of shillings:

$$C = 300 + 0.6y$$

Where:

C is the consumption function. y is the national income.

Required:

(i)	The investment function.	(1 mark)
(ii)	Discuss seven factors that determine the level of consumption in an economy.	(7 marks) (Total: 20 marks)

(2 marks)

QUESTION SIX

(d)	Analyse five functions of non-banking financial institutions in an economy.	(5 marks) (Total: 20 marks)
(c)	Explain six causes of high levels of external debt in developing countries.	. (6 marks)
(b)	Describe six factors that determine the terms of trade in a country.	(6 marks)
(a)	Examine three roles of foreign exchange reserves in an economy.	(3 marks)

QUESTION SEVEN

(a) Argue six cases against the use of national income statistics to compare the standards of living between countries.

(6 marks)

- (b) With the aid of an appropriate diagram, explain the relationship between the short run average cost curve and the long run average cost curve. (4 marks)
- (c) The following information relates to the commodity and money markets of a certain closed economy in millions of shillings:

Commodity market

Ċ	=	200 + 0.4y
I	=	1.900 - 12r

Money market

M_{DT}	-	0.5y
M_{DS}	=	100 - 10r
M_S		1,500

Where:	С		Consumption function
	у	= .	National income
	I	=	Investment function
	r		Rate of interest
	M_{DT}		Precautionary and transactionary demand for money
	M_{DS}	=	Speculative demand for money
	M_{S}	=	Money supply

Required:

(iv)	The equilibrium level of national income.	٤	(2 marks) (Total: 20 marks)
(iii)	The equilibrium level of interest rate.		(2 marks)
(ii)	The LM function.		(3 marks)
(i) .	The IS function.		(3 marks)

TUESDAY: 28 November 2017.

Time Allowed: 3 hours.

Answer any FIVE questions.

ALL questions carry equal marks.

QUESTION ONE

(a) Explain the following types of development plans:

	(i)	Short term plans.	(1 mark)	
	(ii)	Medium term plans.	(1 mark)	
	(iii)	Long term plans.	(1 mark)	
(b)	Highlig	ht three exceptions to the law of diminishing marginal utility.	(3 marks)	
(c)	Describe four functions of money in an economy.			
(d)	Enume	rate five advantages and five disadvantages of a planned economic system.	(10 marks) (Total: 20 marks)	
QUESTION TWO				

- (a) Analyse the relevance of interest rates in an economy.
- (b) Examine eight policy measures that could be adopted to minimise the problem of rising external debt in developing countries. (8 marks)
- (c) The data provided below relate to the quantities demanded of commodities A, B and C at different price levels:

Commodity A		Commodity B		Commodity C	
Unit Price (Sh.)	Quantity demanded (Units)	Unit price (Sh.)	Quantity demanded (Units)	Unit price (Sh.)	Quantity demanded (Units)
75	923	. 14	350	28	540
52	1,568	21	620	24	600

Required:

(i) Elasticity of demand for commodities A, B and C.

(ii) Using the results obtained in (c) (i) above, advise the government on the commodity that should be considered for a tax increase. (1 mark)

(Total: 20 marks)

(6 marks)

(5 marks)

QUESTION THREE

(b)

(a) Outline four factors that determine the supply of labour in an economy.

price and quantity of an agricultural product X:

(4 marks)

(i) A reduction in the price of product Y which is a close substitute for product X. (4 marks) (ii) A successful promotional campaign by producers showing the nutritional benefits of product X. (4 marks) (iii) Discovery of a new use for product X by consumers, accompanied by bad weather condition. (4 marks) (iv) Simultaneous increase in government subsidy on product X accompanied by a reduction in the price of the substitute product Y. (4 marks) (Total: 20 marks) **QUESTION FOUR** State five advantages and five disadvantages of a perfectly competitive market structure. (a) (10 marks) (b) Using appropriate illustrations, describe consumer equilibrium under the following approaches to the theory of consumer behaviour: (i) Cardinal approach. (5 marks) (ii) Ordinal approach. (5 marks) (Total: 20 marks) **OUESTION FIVE** (a) The data below relate to the total cost function of a firm operating under perfect competition: $C = 5.000 + 500O + 150O^2 + 5O^3$ Where: C = Total cost in thousands of shillings.Q = Output in units. **Required:** Assuming an output level of 10 units, determine: (i) Total cost of production. (1 mark) (ii) Average variable cost of production. (2 marks) (iii) Marginal cost of production. (2 marks) (b) Explain five advantages of implementing exports promotion strategy in developing countries. (5 marks) Highlight ten problems that are faced by the agricultural sector in developing countries. (c) (10 marks) (Total: 20 marks) **OUESTION SIX** (a) With the aid of a diagram, explain the term "surplus" as applied in the theory of market equilibrium. (4 marks) (b) Analyse six factors that influence the cost behaviour of a firm. (6 marks) (c) Using well labelled diagrams, distinguish between "inflationary gap" and "deflationary gap" as used in national income statistics. (10 marks) (Total: 20 marks) **OUESTION SEVEN** Explain the difference between "inelastic demand" and "unitary elasticity of demand". (a) (2 marks) (b) Suggest four contractionary monetary policy measures that could be used to combat high level of inflation in a developing country. (4 marks) CA21, CS21, CF21 & CP21 Page 2 Out of 3

With the aid of well labelled diagrams, analyse the effects of each of the following situations on the market equilibrium

(c) The data provided below represent estimated national income figures for a hypothetical economy in millions of shillings:

	Gross National Product (at market price)	3,992	
	Depreciation allowance	570	
	Indirect taxes less subsidies	524	
	Business taxes	214	
	Personal income taxes	763	
	Government transfers	693	
	Retained profit	230	
Requi	red:		
(i)	Net National Product at market price.		(2 marks)
(ii)	Net National Product at factor cost.		(2 marks)

Answ	er any	FIVE questions.	ALL questions carry equal marks.
QUE (a)	STION Highl	ONE ight four steps followed in the scientific method used in economics.	(4 marks)
(b)	Enum	erate five factors that determine the price elasticity of supply of a commodity	y. (5 marks)
(c)	Using	indifference curve analysis, derive the Engel's curve of a normal good.	(6 marks)
(d)	Sumn	narise five applications of opportunity cost in decision making.	(5 marks) (Total: 20 marks)
QUE (a)	STION With	i TWO the aid of a well labelled diagram, describe the cobweb model as used in eco	nomics. (5 marks)
(b)	With	reference to the theory of production, discuss five factors that could lead to:	
	(i)	Increasing returns to scale.	(5 marks)
	(ii)	Decreasing returns to scale.	(5 marks)
(c)	(i)	Explain the term "cross elasticity of demand."	(1 mark)
	(ii)	The following data relate to a consumer in a certain market:	

Price of commodity x	Quantity consumed of commodity y	
(Sh.)	(Units)	
12	80	
16	100	
20	120	
24	140	
28	160	

Required: The cross elasticity of demand. Comment on the relationship between commodity x and commodity y. (4 marks) (Total: 20 marks)

QUESTION THREE

	Explain the difference between "real" and "pecuniary" economies of scale of a firm.	(1 mark)
(b)	Outline four limitations of the cardinal approach to the theory of consumer behaviour.	(4 marks)
(c)	State three reasons why the demand curve slopes downwards.	(3 marks)

(d) The following data relate to the nominal and real gross national product (GNP) levels of a certain economy for the years 2011 and 2016:

Year	Nominal GNP	Real GNP
	(Sh. billion)	(Sh. billion)
2011	1.085	1,085
2016	1,850	1,275

Required:

- (i) The gross national product implicit price deflator for the years 2011 and 2016. Interpret your results. (3 marks)
- (ii) Using year 2011 as the base year, determine the inflation rate for the economy. (4 marks)
- (e) With the aid of an appropriate diagram, explain the condition under which a firm operating under perfect competition market structure would make supernormal profits in the short-run.
 (5 marks)
 (Total: 20 marks)

QUESTION FOUR

(a) Highlight four salient features of a monopolistic competition market structure.

- (b) Suggest six economic reforms that could be put in place to boost the growth of the informal sector in developing countries. (12 marks)
- (c) The demand and supply functions of a certain commodity are given as follows:

$$Qd = 300 - 0.4p$$

 $Qs = -400 + 0.6p$

Where:

Required:

Qd is the demand function. Qs is the supply function. p is the unit price of the commodity.

		equilibrium price and quantity of the commodity.	(4 marks). (Total: 20 marks)
QUE (a)		FIVE ain the monetarists view on the quantity theory of money.	(2 marks)
(b)	Enum	nerate four exceptions to the law of supply.	(4 marks)
(c)	Recei	ntly, there have been deliberate attempts to control the rate of interest in some of the developing	countries.
	In vie	w of the above statement, explain five advantages of interest rate decontrols in an economy.	(5 marks)
(d)	(i)	Distinguish between the "multiplier" and the "accelerator" as used in national income statistics	. (2 marks)
	(ii)	Explain four factors that could limit the application of the multiplier in developing countries.	(4 marks)
(e)	The f	following information relates to the demand of a commodity in relation to the income of a consur	ner:

Income	Demand	
(Sh.)	(Units)	
15,000	16	
29,000	7	

Required:

The income elasticity of demand of the commodity. Interpret your result.

(3 marks) (Total: 20 marks)

(4 marks)

QUESTION SIX

QUE (a)	STION SI Argue th	X e case for and against regional economic integration by developing countries.	(12 marks)
(b)	A firm o	perating under perfect competition has the following demand and total cost functions:	
		P = 25 - 50Q TC = 100 - 15Q + 60Q ²	
	Where:	P is the price in shillings. Q is the quantity in units. TC is the total cost.	
	Required		(5 marks)
		he level of output that would maximise profit. he level of output that would minimise costs.	(3 marks) (Total: 20 marks)

- (a) With the aid of well labelled diagrams, discuss the short run and long run equilibrium positions of a firm operating under monopolistic competition. (12 marks)
- (b) A monopolist sells his product in two distinct markets, A and B. The cost function of the monopolist is given as:

C = 100Q

Where: C is the total cost function

Q is the total production in units

The demand functions of the two distinct markets are given as:

$$Q_A = 50 - 0.2P_A$$

$$Q_{\rm B} = 100 - 0.5 P_{\rm B}$$

Where;

Q_A is the demand of the product in market A.

Q_B is the demand of the product in market B.

 P_A is the price of the product in market A.

 P_B is the price of the product in market B.

Required:

(i)	The equilibrium	level of price and	quantity of the	product in market A.
-----	-----------------	--------------------	-----------------	----------------------

(4 marks)

(ii) The equilibrium level of price and quantity of the product in market B.

(4 marks) (Total: 20 marks)

(Total: 20 marks)

QUESTION FOUR

- (a) Highlight five strategies that could be implemented by governments in developing countries to spur growth in the industrial sector. (5 marks)
- (b) Using an appropriate diagram, describe the expansion curve of a firm as applied in the theory of production. (5 marks)
- (c) Discuss ten limitations of using national income statistics to compare the standards of living between different countries.

QUESTION FIVE

(a) The United Kingdom (UK) recently withdrew its membership from the European Union (EU), a process that was referred to as "Brexit". Analyse the likely economic effect of "Brexit" on the United Kingdom's:

(i)	Exchange rates.	(2 marks)
(ii)	Interest rates.	(2 marks)
(iii)	Inflation rate.	(2 marks)
(iv)	Securities exchange market.	(2 marks)

(b) The table below shows the total variable costs of Ujuzi Limited at different levels of output.

Level of output (units)	Total variable cost (Sh.)
0	0
1	80,000
2	130,000
3	200,000
4	270,000
5	310,000
6	510,000
7	530,000
8	580,000

The total fixed cost of the company is Sh.150,000.

D		
Rea	ur	ed:

	(i) •	The average cost of producing each level of output.	(4 marks)
	(ii)	The marginal cost of producing each level of output.	(4 marks)
	(iii)	The maximum attainable profit.	(4 marks) (Total: 20 marks)
QUE	STION	SIX	
(a)	Outlin	e five factors that determine the rate of exchange of a country's currency.	(5 marks)
(b)	Enume	erate five roles of the central bank in an economy.	(5 marks)
(c)	Sugges	st five policy measures that could be adopted to reduce the level of unemployment in a d	eveloping country.
			(10 marks)
QUE	STION	SEVEN	(Total: 20 marks)
(a)	Explai	n the relationship between money supply and the level of inflation in an economy.	(2 marks)
(b)	State s	ix advantages of a floating exchange rate system in an economy.	(6 marks)
(\cdot)	C		

(c) Summarise eight challenges that hinder successful achievement of national development targets set by developing countries. (8 marks)

CA21, CS21, CF21 & CP21 Page 2 Out of 3

(10 marks) (Total: 20 marks) (d) The economic transactions for a hypothetical economy in thousands of shillings are given as follows:

Sector	Total output Sh."000"	Intermediate purchaser Sh."000"
Service	76,000	37,000
Agricultural	55,000	23,000
Manufacturing	111,000	69,000

Indirect taxes and fixed assets depreciation amount to Sh.21,000,000 and Sh.22,000,000 respectively.

Required:

		(Total: 20 marks)
(iii)	Net domestic product at factor cost.	(1 mark)
(ii)	Net domestic product at market price.	(1 mark)
(i)	Gross national product using the value added approach.	(2 marks)

TUE	ESDAY	: 24 May 2016.	Time Allowed: 3 hours.
Ans	wer any	FIVE questions.	ALL questions carry equal marks.
-		N ONE	
(a)	Outi	ine four assumptions underlying consumer equilibrium.	(4 marks)
(b)	With	the aid of a diagram. explain the production possibility frontier.	• (5 marks)
(c)	Sum econ	marise five ways through which the government could influence the alloomy.	cation of resources in a free market (5 marks)
(d)	Expl	ain how the concept of elasticity of demand guides economic decision making	g in the following areas:
	(i)	Government tax policy on household consumption.	(2 marks)
	(ii)	Devaluation policy.	(2 marks)
	(iii)	Price discrimination by a monopolist.	(2 marks) (Total: 20 marks)
QUE		N TWO	
(a)	Diffe	rentiate between the following sets of terms as used in economics:	
	(i)	"Structural unemployment" and "keynesian unemployment".	(2 marks)
	(ii)	"Narrow money" and "broad money".	(2 marks)
(b)	High	ight five disadvantages of the monopoly market structure.	(5 marks)
(c)	A cer	tain market for commodity x contains 1,000 identical consumers, each having	a demand function given as:
		$Qd_x = 12 - 2p_x.$	
	The n	narket contains 100 identical producers of commodity x, each with a supply fu	nction given by $Qs_x = 20p_x$.
		Qd_x is the quantity demanded of x. Qs_x is the quantity supplied of x. P_x is the price of x.	

Required:

(i) The market demand and market supply functions of commodity x.

(4 marks)

(ii) Using indifference curve analysis, illustrate the effect of a government subsidy on commodity x to low income earners. (7 marks)

(Total: 20 marks)

QUESTIO	ΝΤΠΡΕ	
-	uss five policy measures that developing countries could adopt to reduce region	al imbalances. (5 marks)
	g a well labelled diagram, evaluate the effect of simultaneous increase in librium price and quantity of a commodity.	demand and decrease in supply on (5 marks)
(c) Disc	uss five causes of the U-shaped long-run average cost curves of a firm.	(10 marks) (Total: 20 marks)
QUESTIO		(Greenler)
	nerate six barriers to occupational mobility of labour.	(6 marks)
	trate the close down price of a firm operating under perfect competition.	(6 marks)
(c) Outl	ine eight roles of commercial banks in boosting the economic development of a	country. (8 marks) (Total: 20 marks)
QUESTIO		
(a) Exp	ain five factors that determine the macroeconomic level of consumption in an e	conomy. (10 marks)
	following data relate to the commodity and money markets of a hypothetical overtion, in millions of shillings:	losed economy without government
	C = 204 + 0.7Y I = 300 - 100r	
	$M_{\rm DT} = 0.25 {\rm Y}$	
	$M_{\rm DS} = 248 - 200 r$	
	$M_{S} = 600$	
Whe	•	
	Y is the national income. I is the investments function.	
	r is the rate of interest.	
	M_{DT} is the precautionary and transactionary demand for money.	
	M_{DS} is the speculative demand for money. M _S is the money supply.	
Req	lired:	
(i)	Equilibrium level of interest rate.	(7 marks)
(ii)	Equilibrium level of national income.	(3 marks)
		(Total: 20 marks)
QUESTIO (a) Exp	N SIX ain the term "balance of payments" as used in international trade.	(2 marks)
	the aid of an appropriate diagram, explain the condition under which a firr sture would make losses in the short-run.	n operating under oligopoly market (6 marks)
(c) Exa	nine six roles of non-banking financial institutions in an economy.	(6 marks)
(d) Dese	ribe three ways in which a government could use fiscal policy to stimulate ecor	nomic growth. (6 marks) (Total: 20 marks)
QUESTIO (a) Sum	N SEVEN marise five causes of inflation in developing countries.	(5 marks)
(b) Higl	light eight arguments in favour of international trade restrictions in a country.	(8 marks)
., -	e seven economic goals of developing countries.	(7 marks)

MON	DAY: 23 November 2015.					Time	e Allowed: 3 hours.	
Answer any FIVE questions.				ALL	questions carry equal mar	ks.		
QUE (a)	STION ONE With the aid of a diagram, des	cribe the conc	ept of unstab	ole market e	quilibrium		(5 ma	rks)
(b)	"All giffen goods are inferior	goods but not	all inferior g	oods are gif	ffen goods'	` .		
	Using a relevant diagram, exp	ain the above	statement.				(5 ma	ırks)
(c)	Argue five cases for and five c	ases against s	pecialisation	as a metho	d of produ	ction.	(10 ma (Total: 20 ma	
QUE (a)	STION TWO Outline four arguments upon v	/hich trade un	ions base the	eir demand t	for increase	e in wages	for unionisable employees. (4 ma	
(b)	State six effects of price decon	trols to an ecc	onomy.				(6 ma	ırks)
(c)	Analyse six uses of elasticity of	f demand in d	lecision maki	ing.			. (6 ma	ırks)
(d)	The following information rela	te to the price	e per unit and	l quantity su	upplied of a	a certain pr	roduct:	
	Price per unit (Sh.)	12	10	8	5	2		
	Quantity supplied (Units)	12,000	11,000	9,000	6,000	0		
	Required: Price elasticity of supply when	price decreas	es from Sh.1	0 per unit t	o Sh.5 per	unit. Inter	pret your result. (4 ma (Total: 20 ma	
QUE (a)	STION THREE Explain the term "optimal size	of a firm".					(2 ma	ırks)
(b)	With the aid of an appropriation structure would make super network.				der which	a firm ope	erating under oligopoly ma (5 ma	ırket ırks)
(c)	(i) Summarise seven barri	ers to geograp	hical mobilit	ty of labour	as a factor	ofproduc	tion. (7 ma	ırks)
	(ii) Highlight six measures	that could be	adopted by a	a governme	nt to enhan	ce mobilit	y of labour. (6 ma (Total: 20 ma	

QUESTION FOUR

(a) Outline five problems associated with the expenditure approach of measuring the national income of a country.

(5 marks)

- (b) Enumerate five changes in the tax policy that could be implemented by a government to spur growth in the agricultural sector. (5 marks)
- (c) The following information relates to savings and investments of a certain economy in millions of shillings:

$$S = -500 \pm 0.36Y$$

I = 8.000

Where:

S = Savings function.

- Y = National income.
- I = Investments function.

Required:

(i) The consumption function.
 (3 marks)
 (ii) The equilibrium level of national income.
 (3 marks)
 (iii) The multiplier. Interpret your result.
 (4 marks)
 (Total: 20 marks)

QUESTION FIVE

(a) Describe five instruments of monetary policy that could be used to control the level of money supply in an economy.

		5 F 5		(10 marks)
(b)	Disc	uss five factors that limit the effectivenes.	s of monetary policies in developing countries.	(10 marks) (Total: 20 marks)
QUE	STIO	N SIX		
(a)	Expl	ain four effects of inflation on the functio	ns of money.	(8 marks)
(b)	(i)	Outline six causes of high levels of exte	ernal debts in developing countries.	(6 marks)
	(ii)	Summarise six policies that could be developing countries.	e adopted to combat the problem of high levels	of external debts in (6 marks) (Total: 20 marks)
QUE	STIO	N SEVEN		
(a)	High	light five determinants of money supply i	n an economy.	(5 marks)
(b)	Desc	ribe five differences between commercial	banks and non-banking financial institutions.	(10 marks)
(c)	The	data provided below represent estimated r	ational income figures for country "X" in trillion of s	hillings:
	Gros	s National Product (at market price)	620.4	
		ernment transfers	78.6	
		ness taxes	18.2	
		onal income taxes	56.1	
		eciation allowance	42.3	
	Indir	ect taxes less subsides	36.5	

Required:

		······ · · · · · · · · · · · · · · · ·
		(Total: 20 marks)
(iv)	Disposable income for country "X".	(1 mark)
(iii)	Personal income.	(1 mark)
(ii)	Net National Product at market price.	(1 mark)
(i)	Net National Income at factor cost.	(2 marks)

PILOT PAPER

September 2015.

Answer any FIVE questions.

Time Allowed: 3 hours.

ALL questions carry equal marks.

QUESTION ONE

(a)

(i) Distinguish between "gross domestic product" and "gross national product". (4 marks)

(ii) Give the reasons for the lower value of the gross national product in the less developing countries. (1 mark)

(b) The following data represents economic transactions of a hypothetical economy:

	Sh. "million"
General government final expenditure	6,750
Taxes on expenditure	4,250
Transfer payments	675
Social security contributions	2,500
Net property income from abroad	250
Consumers expenditure	18,500
Subsidies	750
Gross domestic fixed capital formation	5,750
Corporate income tax	750
Undistributed profits	500
Personal income tax	1,000
Imports of goods and services	9,250
Exports of goods and services	8,750
Depreciation	3,500

Required: Calculate:

(c)

Brief	ly explain five functions of money.	(5 marks) (Total: 20 marks)
(v)	Disposable income.	(2 marks)
(iv)	Personal income.	(2 marks)
(iii)	National income.	(2 marks)
(ii)	Net national product.	(2 marks)
(i)	Gross national product.	(2 marks)

CA22 Pilot Paper Page 1 Out of 3

	ESTION TWO
(a)	Highlight five features of a firm under perfect competition.(5 marks)
(b)	With the aid of a diagram, show that MC=MR is just a necessary but not sufficient condition for profit maximisation. (4 marks)
(c)	In the short-run, a monopolist does not necessarily have to make profits; he can make losses. Whether he makes a profit or a loss depends on the position of the short-run total cost curve (SATC) at the short-run equilibrium.
	Using an appropriate diagram, discuss the conditions for the loss minimisation of a monopolist. (5 marks)
(d)	Under monopolistic competitive markets the products are usually differentiated yet they are very close substitutes for one another.
	Explain the main types of product differentiation in monopolistic competitive market. (6 marks) (Total: 20 marks)
-	Citing examples distinguish between "fixed costs" and "wariship costs"
(a)	Giving examples, distinguish between "fixed costs" and "variable costs". (4 marks)
(b)	A firm operating in the short-run period has a fixed cost of Sh.8,600. The table below shows its total variable cost and the units of output:
	Units of output: 0 1 2 3 4 5 6 7 8 9 10
	Total variable costs (Sh.): 0 3040 5680 8000 10080 12000 14000 16240 18960 22480 26880
	Required: For each level of output, calculate the firm's total cost, average total cost, average variable cost, average fixed cost and marginal cost giving your solution in columnar form/tabular form. (10 marks)
(c)	Using an appropriate diagram for each case, explain the three properties of isoquants. (6 marks) (Total: 20 marks)
QUE (a)	STION FOUR One of the main functions of a central bank is the effective implementation of the monetary policies.
	Discuss the main instruments of monetary policies. (10 marks)
(b)	Distinguish between "economic growth" and "economic development". (4 marks)
(c)	Briefly explain the effects of high levels of inflation in an economy. (6 marks) (Total: 20 marks)
QUE (a)	STION FIVE Using the indifference curve margins, discuss how the consumers equilibrium is obtained. Use an appropriate diagram to illustrate your answer. (6 marks)
(b)	With the help of well illustrated diagrams, draw the substitution effect and income effect of:
	(i) A normal good.
	(ii) An inferior good. (8 marks)

(c) Briefly explain the concept of elasticity of demand in the economic management policy decision making. (6 marks) (Total: 20 marks)
